Got any thoughts on how could we leverage this for the external site?

The operational map viewer is at http://www.epaosc.org/site/map_list.aspx?site_id=11107

You'd need to login to epaosc.net to get to the page.

Excellent article. I'll share with our PIO et al.

Don't think I've seen the OEM Data Team's map viewer. Got a link?

Danny,

See below news article passed on to me from a colleague in Region 8. He described it as accurate and provides great historical context on the history of mining in the area and related water pollution issues.

I heard from Eric Delgado of Region 6 that the OEM Data Team has a map viewer staged for review. Are you aware of that viewer?

Eric is working with Randy Nattis of Region 9 and Marty McComb of Region 8 on coordinating data management for the spill.

Thanks,

Harvey
